FAMILY RESORT BUCHAU AT LAKE ACHENSEE

Motif 1 (Image source: Familienresort Buchau)

Children are welcome guests at the Buchau family resort on Austria's Achensee. Numerous play facilities and attractions ensure satisfied families who return again and again as regular guests. The number of rooms has recently been increased with the construction of the new Haus Seeblick.

Motif 2 (Image source: Familienresort Buchau)

Ceramic tiles are used consistently here: from door leaves to washbasin substructures and door frames. The Savona tile series of Agrob Buchtal forms the design bracket. The fact that children are welcome guests here is shown by the child-friendly interior: the washbasin on the left has been set lower.

Motif 3 (Image source: Familienresort Buchau)

The design of a guest bathroom should be inviting, modern and harmonious, but the hygiene and cleanliness factors also define the standard of the hotel. With the innovative Hytect surface from Agrob Buchtal, cleaning becomes child's play. The tiles from the Savona series used here have an antibacterial effect without chemicals, neutralize unpleasant odours and air pollutants and are extremely easy to clean.

Motif 4 (Image source: Familienresort Buchau)

In the shower, the Savona ceramic tile collection not only shows its advantages with regard to easy cleaning thanks to the Hytect coating. Its discreetly granulated surface also ensures the slip resistance B required in wet areas.
