Today's educational buildings count on ceramic tiles

Schloss-Schule Kirchberg, Baden-Württemberg/Germany: The ceramic façade not only gives the building a unique appearance. It offers protection from sunlight and has a cooling effect / ceramic system KeraShape

Swimming cancelled again today? Not here: Renovation of the school swimming pool Vogelsang (CH) / Floor tile Loop

© agrob-buchtal.de / Daniel Zehnder

Grundschule Kreuzschule, Regensburg (GER): Learning together, chatting - this is the right atmosphere for it / Floor tile Nova

© agrob-buchtal.de / Herbert Bürger

Dreifeldporthalle in Berlin (GER): The eight colours used on this façade create a pixel image that transfers the contours of the surrounding trees into the façade / Series Chroma

© agrob-buchtal.de / Christoph Rokitta

Ammattioposto Live, College and Training Centre in Espoo (FIN): The façade filters out most of the reflected sunlight and provides ideal support to the education of visually impaired pupils / Series KeraShape
